Children can help get supplies out and put them away if they are easy-to-access and clearly labeled places for these items. Cut out the Supply Labels along the solid lines. These basic items are used often throughout the quarter. Tape one label to the container holding the item. Tape the duplicate label onto the shelf or other storage space where you want the children to return the item after use. Children can match the labels on the containers to the labels on the shelf at cleanup time.
